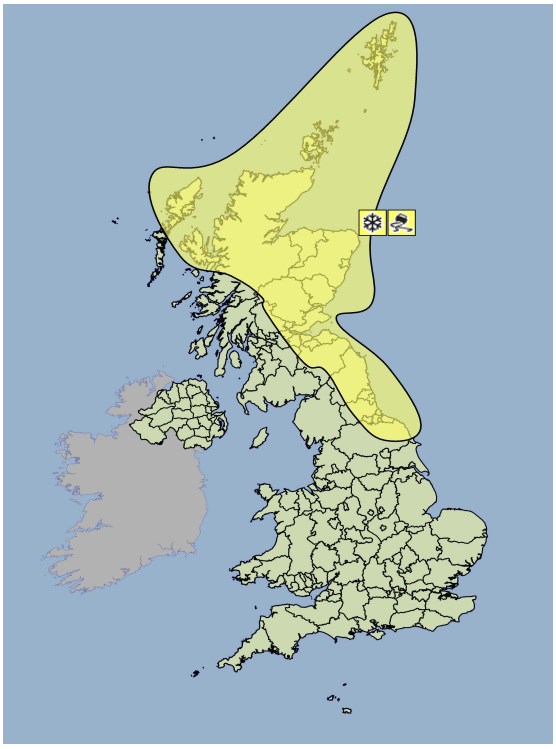
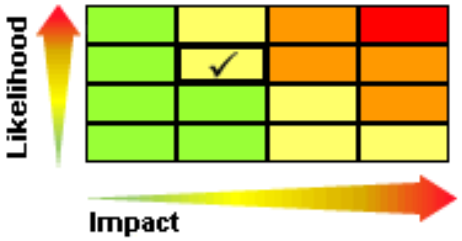
National Severe Weather Warning Service





Chief Forecasters Assessment
Further showers will affect northern and eastern Scotland and parts of northeastern England through this evening and overnight. Over northern Scotland showers will fall as snow to low levels. Elsewhere within the warning area these
showers will be turning increasingly wintry, with the main snow level down to between 100 and 200 m by the end of the night. Locally 2 or 3 cm of snow is possible above 200 m. These wintry showers will also see ice readily form on untreated surfaces or where earlier road treatment is washed off.

The Met Office have issued a **Yellow Warning** of **Snow and Ice**

Valid from **14:30 on Sat, 05th Mar 2016** until **11:00 on Sun, 06th Mar 2016**

Wintry showers will affect parts of Scotland and northeastern England through Saturday evening and night, allowing ice to form readily on untreated surfaces and where showers wash off earlier road treatment.

Please be aware of these wintry hazards and the potential for some difficult driving conditions.

Please be aware of these wintry hazards and the potential for some difficult driving conditions.
